

FTC Compliance

The following describes the Federal Trade Commission Compliance for our velocityburn.net website.

We make every effort at candor regarding any products or services we use, recommend, or otherwise make mention of at velocityburn.net. We strive to clearly differentiate between our own products or services versus those of third parties, to facilitate inquiries, support, and customer care. Likewise, just as we (and any other legitimate business) may profit from the sale of our own products or services, we may also profit from the sale of others' products or services (like any retailer) at velocityburn.net. Additionally, wherever products or services may give rise to income generation, we endeavor to provide realistic and factual data, but highlight the fact that the variables impacting results are so numerous and uncontrollable that no guarantees are in any way made. It is our goal to embrace the guidelines and requirements of the Federal Trade Commission (FTC) for the benefit of all, and with that in mind provide the following disclosures regarding compensation and disclaimer regarding earnings & income.

Note that material connections may not be made known at every single advertisement or affiliate link. Thus, to be safe, you should simply assume there is a material connection and that we may receive compensation in money or otherwise for anything you purchase as a result of visiting this website, and also that we may be paid merely by you clicking any link.

Amazon.com

One or more parties affiliated or associated with our velocityburn.net website in some way may be an Amazon.com affiliate. This means that links to products on Amazon.com, as well as reviews leading to purchases, can result in a commission being earned. Again, disclosure of this material

connection and the potential for compensation may not be made at every single possible opportunity. To be safe, simply assume there is a material connection and potential for compensation at all times. While this does not imply skewed or unduly biased reviews, full disclosure calls for this warning.

Compensation

You should assume that we may be compensated for purchases of products or services mentioned on this velocityburn.net website that are not created, owned, licensed, or otherwise materially controlled by us. Stated differently, while most people obviously understand that individuals make a living by way of the profit that remains after the costs associated with providing their product or service are covered, at least theoretically there may be someone out there who does not understand that a third party can "affiliate" someone else's products or services and be compensated by the product or service creator/owner for helping spread the word about their offering. Just compare it to retailers. They seldom produce anything, but rather make their money connecting product and service creators with end users.

Admonition

Having said that, you cannot count on anyone looking after your interests but you. So, you ought to always do your own research into various offers and opportunities, to the extent that leaves you comfortable, doing your own due diligence prior to making any purchase of any product or service from this velocityburn.net website or any other. Here is a great set of guidelines for you to keep in mind:

First, just always operate from the position that any website proprietor, including us at velocityburn.net, will have a material connection to the product or service provider, and may be compensated as a result of your purchase, unless expressly stated otherwise. Aside from your purchases, note

that even your actions could result in earnings for this website. For instance, there could be ads displayed on this velocityburn.net website that we are compensated for displaying whenever a website visitor clicks on them.

Second, to the extent that we have every interest in positively furthering our business relationship with you, we certainly desire to share only those offerings that we believe will benefit you. Just because we are not the founder or originator of the product or service, we are not going to withhold knowledge of this offering from you. If you can get some benefit from it, regardless of whether or not you've taken advantage of our own products and/or services, we want you to do well. Thus, we make a good faith effort to only present to you items that we either personally use, have actually tried, or else have faith in the reputation of the provider or concept. You can count on us making this determination based on all relevant and applicable information at the time of the recommendation.

Third, despite the fact that it would be counterproductive to mention products or services that you'll find disappointing or inferior, not only are people different, but it's also possible for us to have a lapse in judgment. Thus, to be extra cautious, even if you believe in our good faith motives, you may as well go ahead and keep in mind that we could be at least partially influenced by the monetization factor of listing various products or services on our velocityburn.net website. Furthermore, in that vein, the reality is that there are sometimes other connections between parties that are not monetary, such as personal capital, goodwill, or otherwise, that could be an underlying undercurrent swaying the decision to promote a particular offering. Due to this hypothetical possibility, you should again simply not rely solely on what we have to say, but rather just form your own independent opinion just to be safe. Finally, bear in mind that we might also receive free products or services, gifts, or review

copies of items too.

Testimonials

Testimonials regarding the outcome or performance of using any product or service are provided to embellish your understanding of the offering. While great effort is made to ensure that they are factually honest, we at velocityburn.net are not liable for errors and omissions. Aside from human error, some information may be provided by third parties, such as customers or product/service providers. The best results are not uncommonly correlated with the best efforts, discipline, diligence, and so on, and thus the results depicted cannot, in any way, be construed as common, typical, expected, normal, or associated with the average user's experience with any given product or service. Exceptional results may be depicted by our website as highlights, but you are responsible for understanding that atypical outcomes may not reflect your experience. Aside from market conditions, products and services change over time. Older products may lose effectiveness. Newer products may not have a reliable track record.

Where products or services might pertain to earning money, the same safeguards about use of testimonials apply. Additionally, note that any related income figures are highly specific to the individual or entity that produced those results, and there can be no assurance that you will be able to leverage the same, or similar, products or services to achieve comparable results. The results, though real, may be the result of the conflation of a number of favorable circumstances that would be difficult to replicate, and so you must proceed with the knowledge that your outcome can differ from any shared on our website.

Professional Consultation

Many products and services are designed to solve problems.

Common problem areas include legal, financial, and medical. We are in no way purporting to counsel you on issues related law, finances, or health. If you require guidance in these arenas, you should consider securing your own counsel from lawyers, accountants, tax professionals, investment advisors, or medical professionals before taking any action. Nothing we may ever communicate at velocityburn.net, in print or spoken word, will ever be intended to constitute any such counsel, as we do not claim to be professionals in any of those disciplines. You assume all risk for actions taken, losses incurred, damages sustained, or other issues stemming from your use of any product or service in any way connected with or mentioned on this website. Indeed, such decision is solely your own, or else determined in conjunction with the professional guidance of the advisor of your choosing.

Use Of Products & Services

The following are facts you should be advised of if you intend to take advantage of any products or services:

The price paid for products and services change over time. Even the prices of staples and basic commodities change, and there are many factors such as supply and demand, sales and other customer acquisition incentives, and more. Price, and value, can be quite relative. Technology, innovations, product improvements, market penetration, and numerous other factors all weigh in. It is impossible to define the "right" price for any product and service. Willing buyers and willing sellers determine price at any given time. You accept the fact that your purchase reflects your own attribution of value at the time of purchase, and that the price may increase or decrease in the future.

The outcome you experience is dependent upon many factors. Aptitude and attitude go a long way towards success with products and services in virtually any niche, whether fitness or making money. Circumstances, experience, innate abilities,

personality, education, time commitments, and perseverance are just a few factors. Given the smorgasbord of interrelated variables, there is no way to reasonably predict your specific outcome with any degree of reliability or certainty.

Income-Producing Products & Services

Income-producing products & services are likewise subject to the above cautions. In addition, however, there are additional factors we like to point out at velocityburn.net. Unlike weight loss products or self-help materials, income-producing methods are influenced by the overall health of the economy in which one operates. In times of liquidity, money flows freely and commerce is easier. In times of perceived scarcity, fear, recession, depression, or otherwise, commerce is stymied. Results can be influenced by market sentiment, just as the stock market indices around the world are swayed heavily on news.

Income-producing products & services purchased should be viewed as just that – purchases. Though they can be investments in one's business, it is not unreasonable to expect that there may not be an express return on that investment, per se. Often, business success is the convergence of a number of factors, methods, strategies, and so on. It can be hard to peg success to one method or machination. This does not necessarily undermine value of any given product or service, as it can have an additive effect. Or, it may have no effect. Since it can be difficult to tell, you should operate on the assumption that your outcome could be zero. We make no guarantees and you should only risk what you can afford to lose on any purchases on or through velocityburn.net.

Earning & Income

In light of all of the factors above, impinging on the very nature of income-producing products and services, there is no way to guarantee results of any kind whatsoever. Accordingly,

we affirmatively declare that we make no guarantees as to your earnings & income of any kind, at any time.

As with any business endeavor or investment, past performance is no guarantee or predictor of future performance. Any testimonials or other representations of results are for illustrative purposes only and, though every effort is made to ensure they're factually honest, they are not intended to imply or insinuate what is likely to happen with you. Your reliance on them as such is not advised.

It should be noted that "earnings & income" is so phrased with specific intent. While income may typify the earnings most either seek or are accustomed to, earnings can come in non-monetary forms. These include some forms that are abstract or intangible, and thus not even readily converted to currency or a common medium of exchange. Thus, note that all manner of compensation, including earnings of a non-income yet nevertheless beneficial form, are covered by these provisions.

Affiliates & Other Third Parties

It should also be noted that we only have control over, and thus only accept responsibility for, the content of this velocityburn.net website authored by us. Any representations made by others should be considered prima facie unauthorized. You may also read, hear, or otherwise come into contact with commentary about any of our products & services or offerings, and should assume those have likewise not been authorized.

While information, in any form, can arise, at any time, regarding our products & services, there may be times when this results from an affiliate relationship. In other words, we may permit our products & services to be marketed through other individuals, businesses, websites, and otherwise, just as providers of goods and services use retailers and other vendors to make available what they offer.

You should not construe a third-party offer as an endorsement

by that third party of any product or service. You should, more conservatively, view it as an offer to buy something. Likewise, as alluded to previously, note that we cannot fully control all marketing practices by all parties. With the use of "mirror" sites, indirect or unauthorized affiliates, "tiered" affiliate structures, and so on, policing the world wide web with any modicum of thoroughness is unlikely. We make reasonable efforts to ensure our affiliates comply with our policies and represent our products & services consistent with our guidelines. However, at velocityburn.net we cannot always guarantee they will do so. You are always free to report concerns or abuses via our Contact information.

Customer Care

Last, but not least, please note that our role in briefing you on products and services other than our own is simply as a "matchmaker." We do not provide any support or customer service for those items and you should always contact the owner or provider of those products or services to have any and all questions answered to your satisfaction before purchasing.
